

# ARTS RESTIGOUCHE ÉCOLE • SCHOOL

## SESSION 1 Twirl It Up! (Ages 7-19)

Baton twirling, like dance and gymnastics, is part sport and part art. There are a number of standard body moves and baton-handling techniques, but the greatest joy for both participants and spectators is a creative, lively and unpredictable routine that exemplifies the best of both. This session will teach various twirls and rolls for your solo events, as well as classes on technique and dance for your free style or pairs.

Separate sessions will focus on specific techniques at the beginner, intermediate and elite level. Learn to smile, laugh, and make eye contact, which are important skills in any creative performing art. By the end of the week you'll be ready to showcase your new routine on our big stage. Session will also include Dance and Rhythm as a complemented activity featuring Triolet du Nord!

Triolet du Nord!

The Trio, Joey ,Kevin and Patrick will cover many styles of percussion with emphasis given to the fundamentals and exposure to percussion ensemble playing. All campers will have the opportunity to attend classes and perform on a wide variety of instruments. Get in the beat and in the groove and share an experience like never before.

All campers will perform in a percussion ensemble, baton and dance routine directed by camp and staff members.

## SESSION 2 Rock, Jazz, Blues 'n MAYHEM!!

Get that groove out of your garage and onto the big stage! Come on out and learn (or improve) a wide range of musical skills on the guitar, piano and violin/fiddle. Bring along your favourite instrument and your musical talent and let us inspire you to try new styles. During our sessions we will spend our time creating bands, writing original music and lyrics, and having a blast! Explore collaborative creation techniques as you work on vocal, instrumental and group performance skills. We'll go from jamming in the music room, to a full concert on the big stage. Come prepared with your artistic creativity and your passion for musical fun, and let's create some large-scale MAYHEM!
