
Team Trials 2012 Judges Results Package

The complete Judges Results package from the 2012 Canadian Team Trials. The package contains both the PDF files (the printouts that you were signing) and the actual Excel tabulation files.

You will need to download the file and then unzip it to your local computer drive. Once done, you will find the tabulation spreadsheets for each division and a folder labeled 'Results CD'. The Results CD folder contains PDF files for the Summary Sheets and Recap Sheets of each division and round.
