Baton New Brunswick
Annual Report
2012-2013

CBTF President and Board members,

BNB had a very good year with an increase in our membership. We are expecting a change in our St-John's club which after a few years of being less active is planning to resume a more active role.

Increasing the visibility of the sport is still our goal. We now have a new website which we will be publicizing to our clubs. We are hoping to host the Canadian Championship in the near future to help promote this sport in our province.

Organizing local and provincial championships is still a big part of our tasks/budget. Club Baton Atlantik has host two open competition in December and May, two SDP badge testing clinics and a pre-event competition. Our Neguac Club, Les Étincelles, with Solange St-Coeur as its lead, organized our March open. Club Baton Atlantik hosted Provincials in May and BNB hosted Canadians in Moncton with Brenda and her club doing the organizing. BNB is very proud of it's organizing committee for a well-run competition but also for generating a profit which could not be done in our last hosting of Canadians. Many of our athletes attended the trillium cup competition and 3 athletes attended the IC 2013 in Holland.

Every August, we continue to have our annual summer camp in Moncton. We wish to acknowledge Brenda Arsenault-LeBlanc in accepting to organize this growing event.

With coaches clinics, we have increase our numbers of amateur coaches in the province in the last few years. We are building our older athletes into becoming coaches for the lower level athlete in hope of perpetuating the sport.

With the continuing growth of our sport, our organization and our team, we are looking forward to our next season with the hope that the sport will continue to grow in NB.

Sincerely,
Nadine LeBelle-Déjario
