

## **2017 FQBS Annual Report**

Québec has had another great year of twirling. This past season, we have grown from 18 to 23 active members. We especially had a large number of interest in competitions with a new group of motivated parents of Pre-Competitive athletes with a few competitive ones. Most of them have mentioned they will be returning.

### **FQBS participated in the following events this past year:**

- 2 competitions in the province of Ontario; helping our athletes be exposed to various styles and levels of twirling. It was very motivating for the parents especially.
- Participated in the Santa Clause parade in Gatineau, QC
- Year End Recital held in June
- Badge Workshop hosted by CBSO and FQBS. The athletes were filmed for each badge and the videos were sent to CBTF for adjudication. 23 badges were passed during this workshop.

We have found the changes to the Pre-Competitive program changes to be successful. It is easy to create consistency with training and the guide is straight forward for our newer coaches. The athletes are able to follow the music much better for the set routines and the competitions seem to be better organized with this structure.

We would like to thank CBTF for giving us the opportunity and support we need to grow as a baton twirling province. We know this will be another great year full of excitement and are looking forward to it!
